PROFILE

I'm **Florian Vandenabeele**, a passionate Software Engineer with expertise in **Java**, Spring, and multiple front-end frameworks. I have 5 years of experience in backend and full-stack development, working on ERP applications, payment systems and mobile apps/terminals. I'm always eager to explore new technologies and build innovative solutions.

WORK EXPERIENCE

The Beehive

05/2025

Fullstack Java Consultant

Full-stack consultant at **BOSA** (Belgian Government) via **The Beehive**: contributing to the modernization of government systems through **Java/Nuxt/Vue** development, monolith refactoring, and microservices migration.
